

# \_ EXPERT PDF SOFTWARE \_

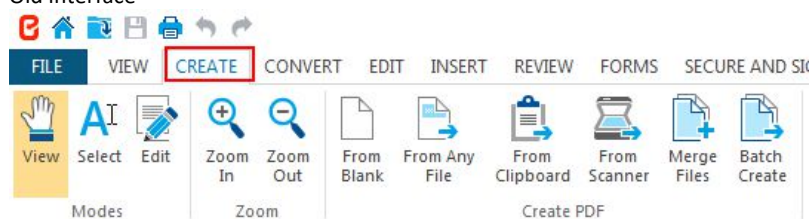

## New and improved user interface

For Expert PDF 15, a range of different features have been shifted around or renamed to bring you a more intuitive experience.

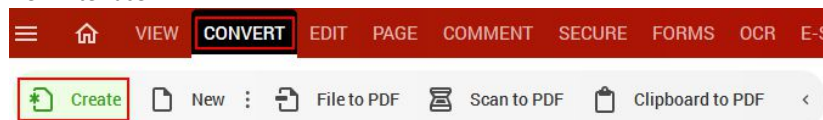

If you've been using past versions, here's a recap of all the features that have been moved or renamed in the new interface:

- The "Create" module has merged with the "Convert" module. You'll now find a "Create" sub-menu within the "Convert" module.

Old interface

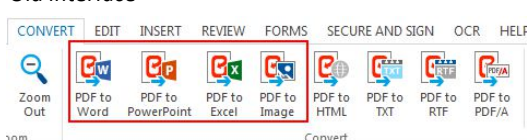

New interface

- PDF to Word, Excel, Power Point, and image file conversions have been moved to the "Export" sub-menu.

Old interface

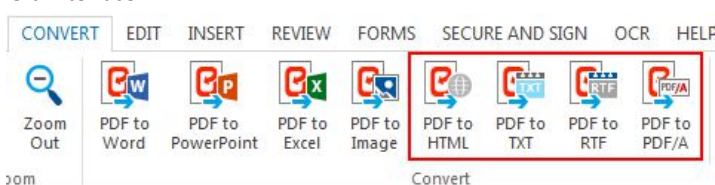

New interface

- PDF to PDF/A, HTML, and TXT file conversions have been moved to the "Advanced" sub-menu.

Old interface

New interface

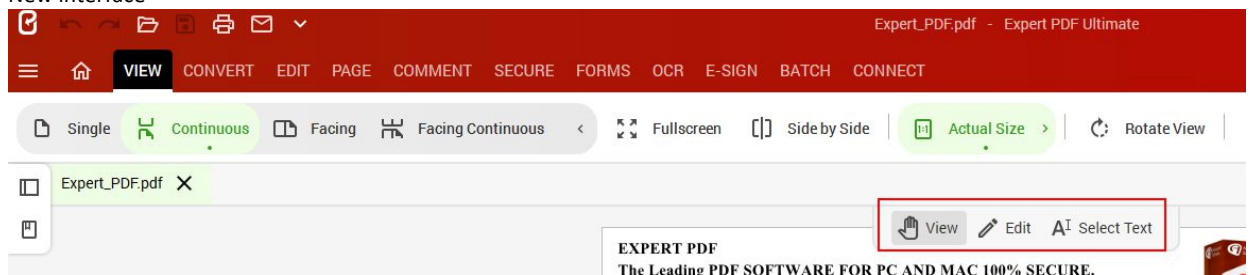

- You'll no longer find the option to select "Edit", "Preview", or "Select" in the upper left of the interface, but in the center instead, right under the toolbar.

#### Old interface

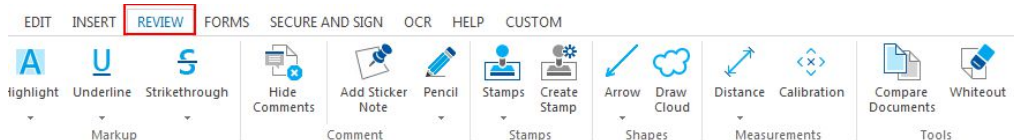

#### New interface

- The "Review" module has been renamed "Comment".

#### Old interface

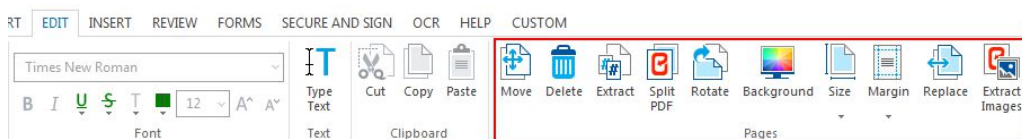

#### New interface

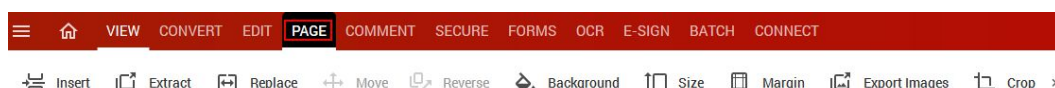

- The Page tools that used to be in the "Edit" module have been moved to a new "Page" module.

#### Old interface

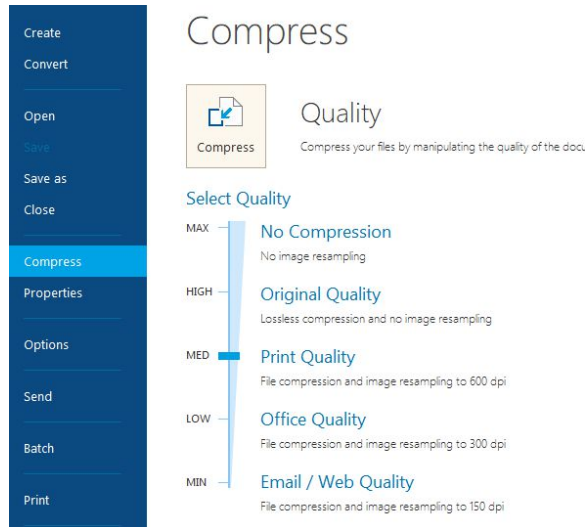

#### New interface

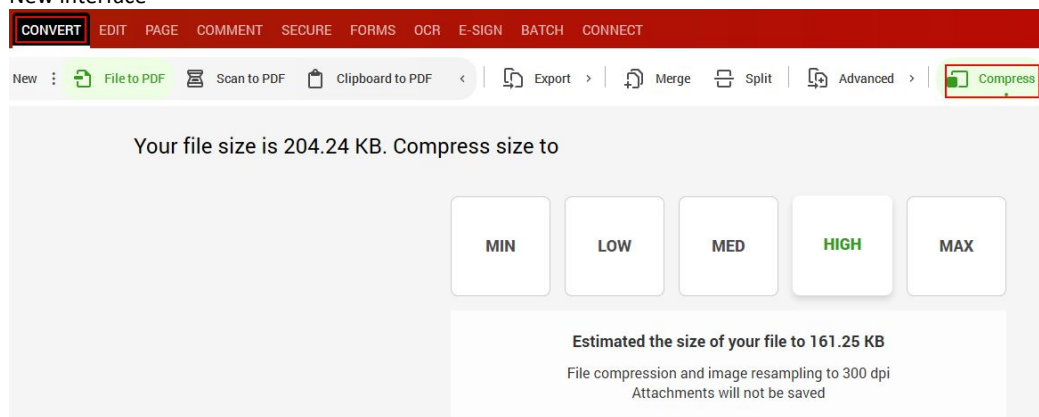

- The “Compress” feature has been moved from the “File” module to the “Convert” module.

Old interface

New interface

- The “Insert” module has been removed, and its features have been added to the “Edit” module.

Old interface

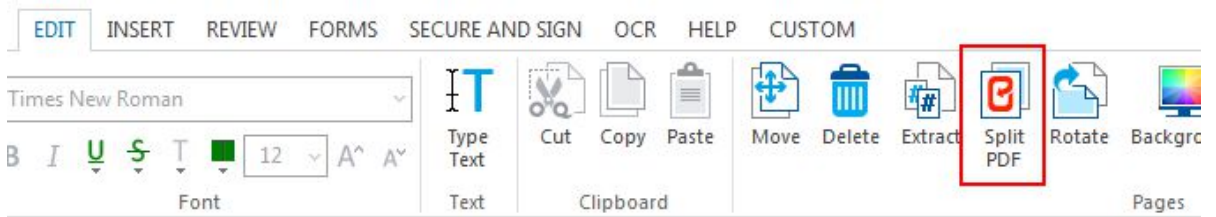

New interface

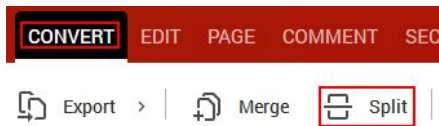

- The “Split” feature has been moved from the “Edit” module to the “Convert” module.

Old interface

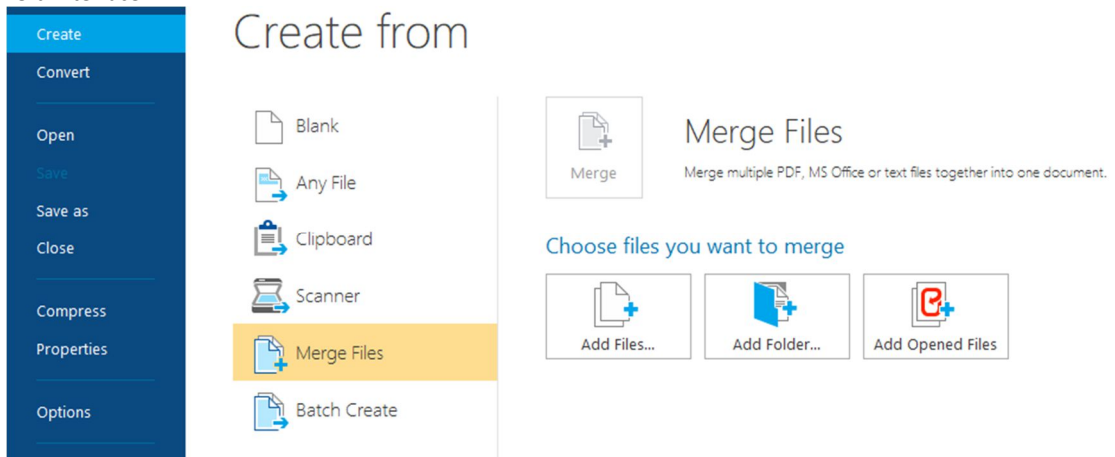

New interface

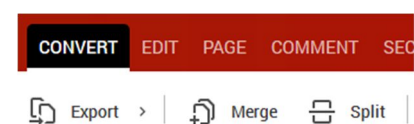

- The “Merge” feature has been moved from the “File” module to the “Convert” module.

Old interface

New interface

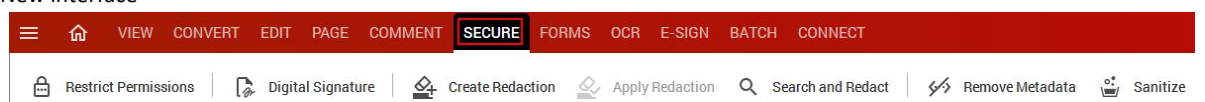

- The “Secure and Sign” module has been renamed “Secure”.

Old interface

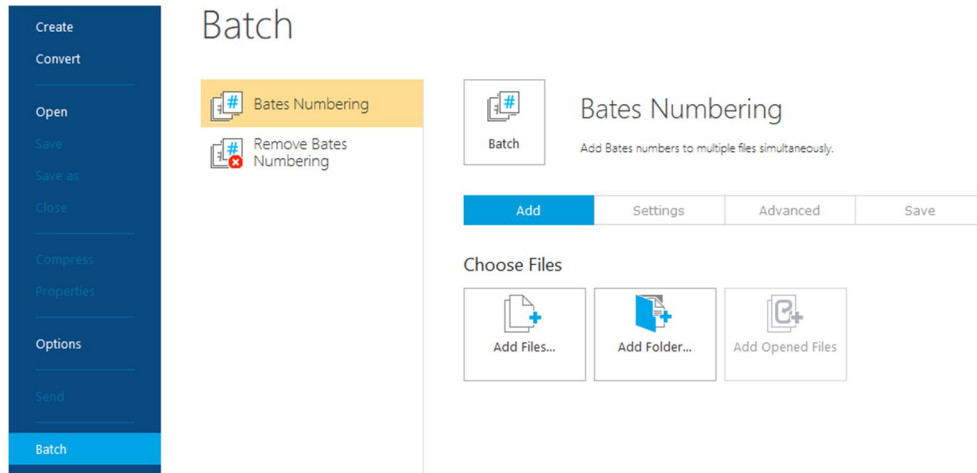

New interface

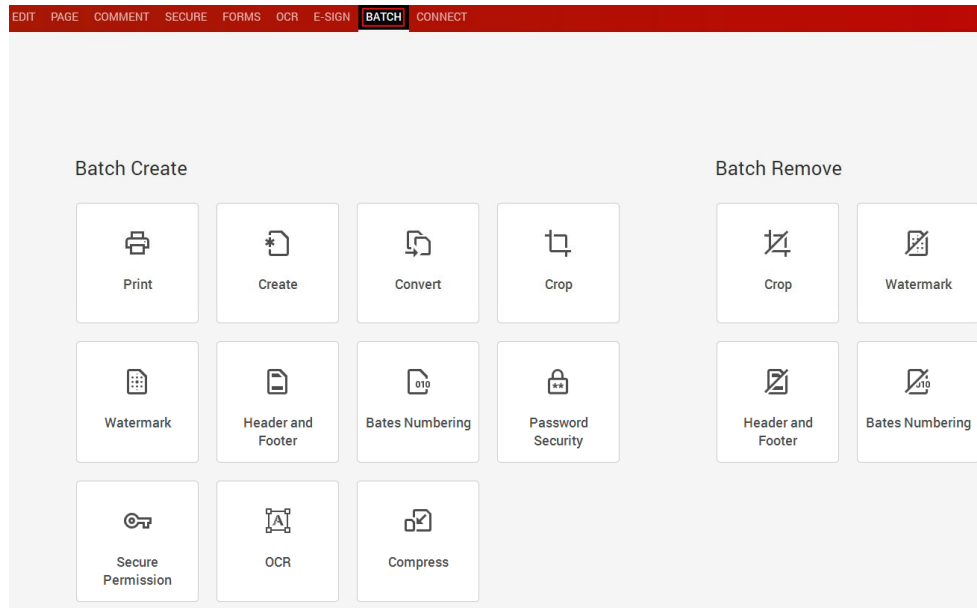

- Batch processing is now grouped within a module with a new full-screen interface and improved production workflows.

Old interface

New interface

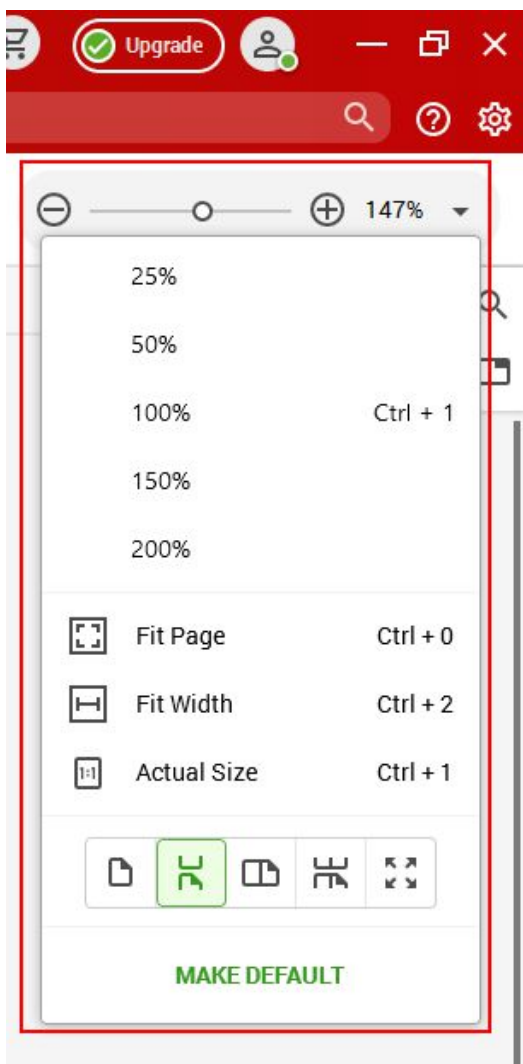

- The quick-access zoom and display features have been grouped within a drop-down menu.

Old interface

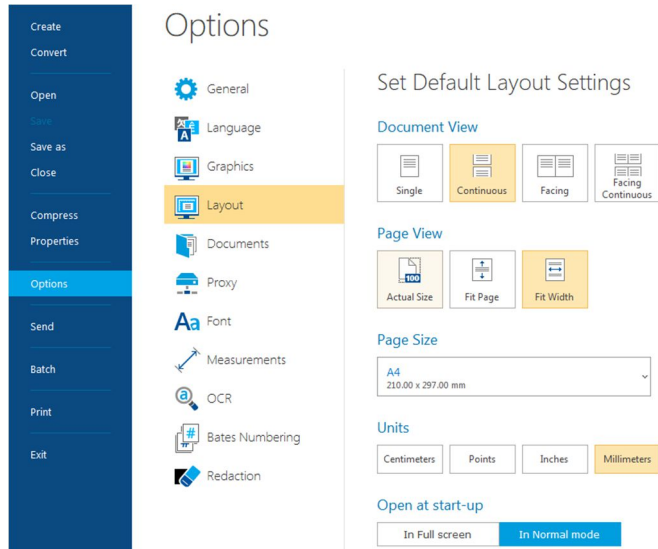

New interface

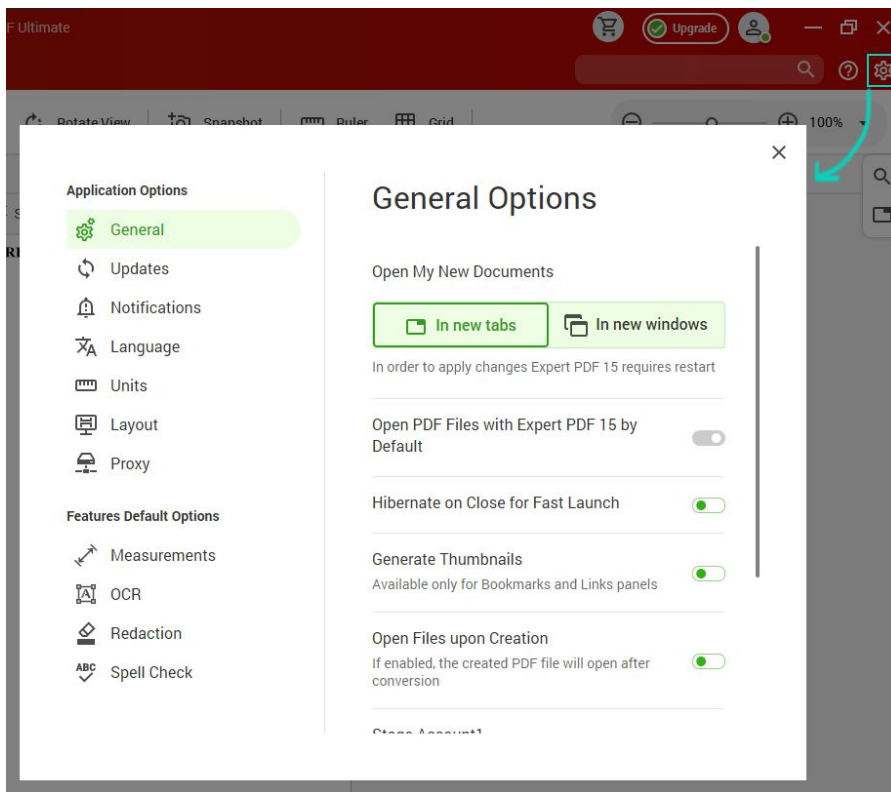

- The “Options” menu had been removed from the “File” menu and can now be accessed via the gear icon in the upper right of the interface.

#### Old interface

#### New interface

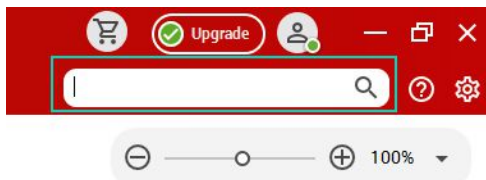

- The quick search option has been moved from the lower left of the screen to the upper right.

Old interface

New interface

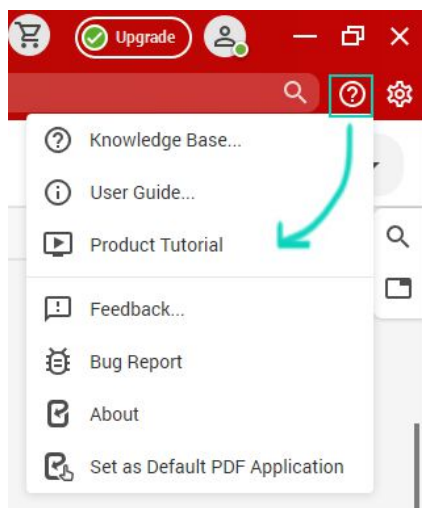

- The Help section is now no longer a module: you can access it via the Help icon to the right of the account drop-down menu.

Old interface

New interface

- For improved visibility within the interface, you can now expand some of the sub-menus. Expandable menus are flagged as such by the small arrow  located at the bottom. You can click on the arrow to roll out the sub-menu and see all the features available, or close it back up again.
